Hi,

I know Ron is out this week so I would not expect to hear from him until Monday. To me the plan seems acceptable, especially with the lowered velocity at the exit. But you will need to wait for final confirmation.

Hi Ron and Allen
Can you please give me your comments on the 60" revised storm line drawing that Selim has designed . If you can let me know if this meet your approval for this storm line. I really need to get city approvals on this so I can get started before we are back into the rain season. I am hoping to have the sewer approved drawings back soon which would be the first thing for me to start and then the 60" storm. Hope to hear from you soon on this .

Thank you Scott Campbell
